

THE ATLANTA CONSTITUTION.

VOL. XXX

ATLANTA, GA., WEDNESDAY MORNING, SEPTEMBER 22, 1897.—TWELVE PAGES

PRICE FIVE CENTS

CONVICT LABOR TO BE HIRED, BUT NO CONVICT TO BE SOLD

That Is the Plan Which Has Been Outlined and Practically Agreed Upon by the Penitentiary Committees of the House and Senate, in Session Here.

STATE WILL HAVE A PENAL COLONY FOR YOUNG AND AGED

On This the Boys, Women and Old Men Will Be Employed---Two Long Sessions Held Yesterday and a Full Discussion Had---Several Land Boomers as Lobbyists---Question One That Will Require Several Days to Solve.

The penitentiary committees of the house and senate met at the capitol yesterday, and during two lengthy sessions discussed the convict question from every standpoint. They adjourned without taking definite action, and will meet again at 10 o'clock this morning. They have gone far enough, however, to indicate their purpose, and there is no doubt that a sub-committee will be selected to frame a bill on the line suggested in a report made by another sub-committee which waited upon Governor Atkinson to officially notify him of the meeting of these two important legislative bodies. That report is as follows:

The governor states to your committee that he does not think it proper for him to enter into a detailed discussion of the proposed legislation in advance of his message to the general assembly. He will, however, take pleasure in conferring with such members of your committee as may desire at any time to discuss the matter with him and to co-operate with you or any sub-committee which may be appointed.

He makes to your committee the statement that in his opinion legislation should be enacted creating a prison commission, which should be given control of our penitentiary, subject at all times to legislative direction. This commission should take charge of penitentiary convicts, control and manage them, and appoint all officers entrusted with their control. They should be authorized to purchase such land or lands as may be required for penitentiary purposes, and on it erect such buildings as may be necessary.

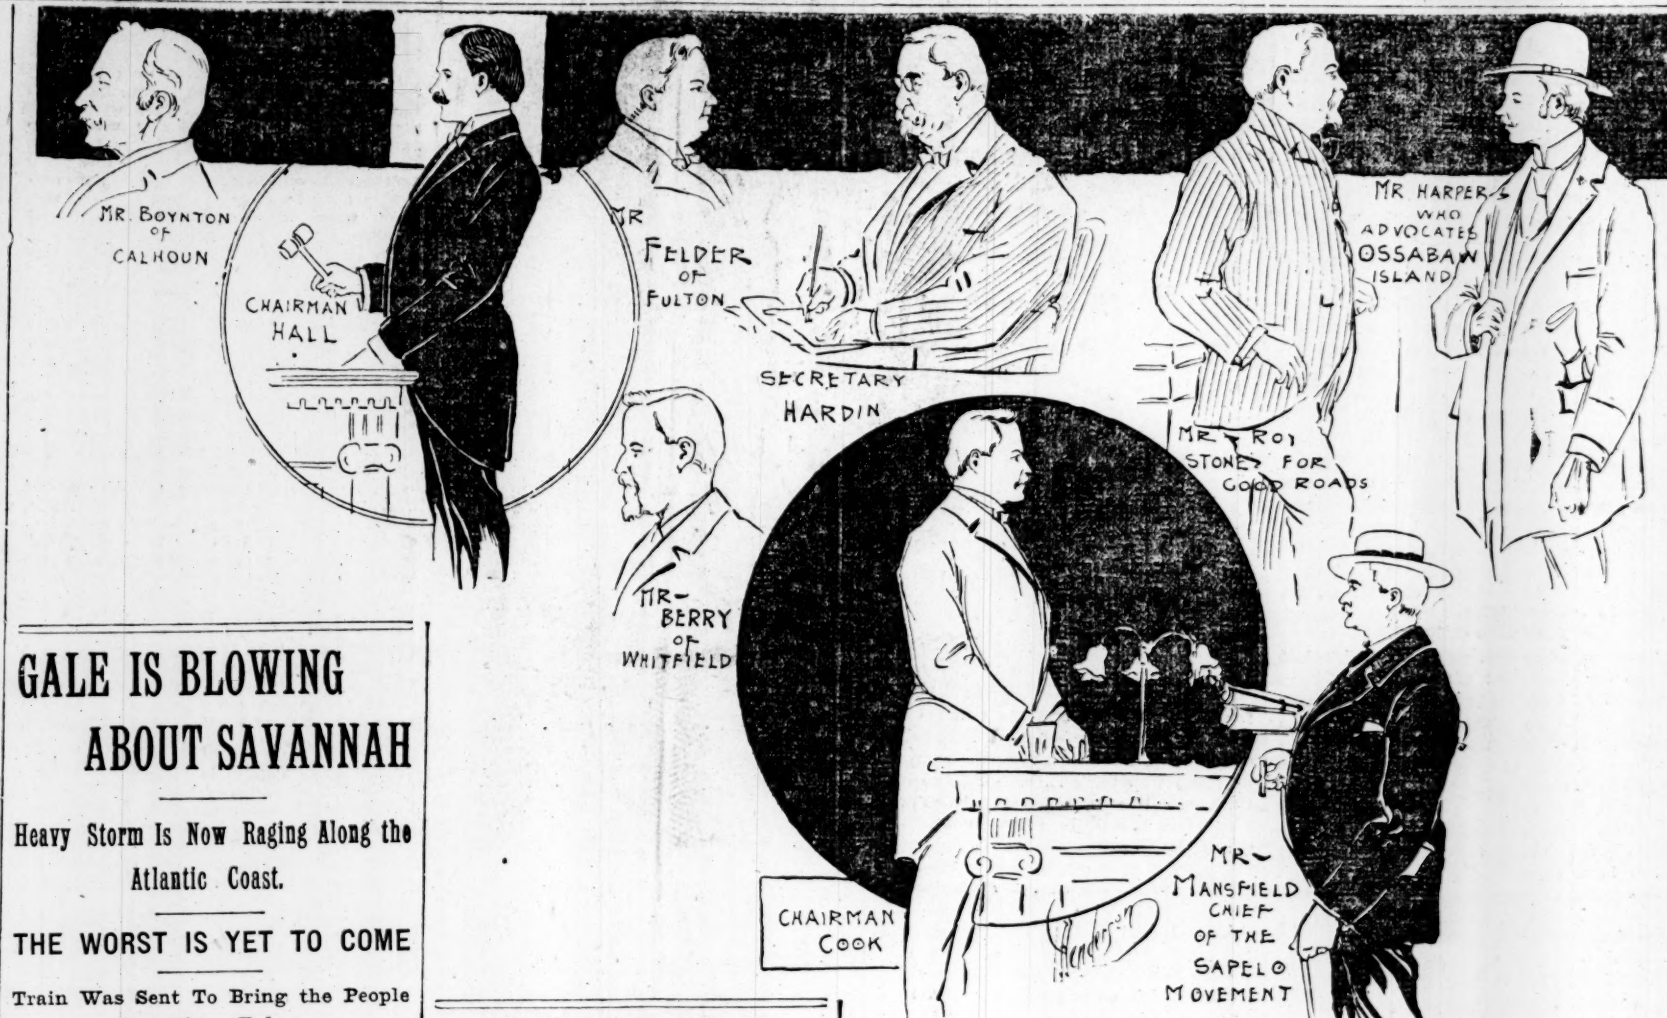

In the erection of these buildings provision should be made for a separate department for a reformatory, wherein all boys under seventeen years of age should be confined, worked and surrounded by such educational, moral and religious influences as will tend to secure their reformation.

A separate department should be constructed for women. Here the women convicted and sentenced to the penitentiary should be engaged in making clothing for themselves and all other inmates of the penitentiary, and doing such work as may be directed by the prison commission.

Another department should be erected for the care of men. Since we cannot make an expenditure sufficient to prepare for placing all male convicts in this central prison, there should be confined here only the aged and infirm, or second-class convicts, and a sufficient number of able-bodied men to enable these to successfully carry on such work as may be provided for them. This will leave most of the able-bodied men to find employment at some place other than the central penitentiary. These, he thinks, should not be leased to any one, but, as before stated, worked under the control and management of the prison commission, the party for whom they are worked paying into the state treasury a stipulated sum for their labor, either having authority to control or manage, and without being charged with the responsibility of clothing, feeding or otherwise caring for them, this being done entirely by the state. The proceeds of their labors, under the direction of sub-committee legislation, may be used for the purpose of sustaining and extending our penitentiary, with the view of ultimately so enlarging it that we can, upon our own premises and in our own houses, care for all the inmates of the penitentiary.

The joint meeting of the two committees accomplished nothing during the day, but it may be said that their preliminary discussion blew the froth off the convict question. This morning the members will get down to business. In the multiplicity of ideas and suggestions which have been offered, a good deal of confusion exists, and it may be that the meeting will be prolonged for several days. There is little doubt, however, but that the members will take refuge in the plan outlined by Governor Atkinson and Judge Turner and that a sub-committee will be appointed to put this plan in the shape of an ordinance to be submitted to the legislature which meets in October. The meeting was full of interest. There were very few absentees in either committee, and every member came to their own lively appreciation of the importance of the work in hand. Chairman Hall, of the house committee, spent the night with Governor Atkinson at the executive mansion, and Chairman Cook slept at the Kimball house. Early in the morning the two chairmen called on the governor, and for more than an hour the three were in a conference at the capitol deep to be interrupted by a caller. They arranged a plan of procedure, and the somewhat delicate matter of leadership was settled to the satisfaction of all concerned.

Islands for Sale.
While the conference was being held the corridors of the capitol filled up rapidly with members of the legislature from all sections of the state. They stood about in groups talking politics and the convict question by turns, and all seemed to be glad that an excuse offered for their gathering together. Six large men, who were naturally attracted to the attention of the gubernatorial candidates and their friends, and among the conspicuous visitors to the capitol during the day were Senator R. W. Clayton, Fleming Johnson, Colonel J. W. Robertson, former Senator Patrick Walsh and many others. Attorney General Terrell and Secretary of State Chandler were also present. By long odds the most prominent individual in the gathering was Uncle Joe Mansfield, representative from McIntosh county, who wants the state to buy Sapelo

GALE IS BLOWING ABOUT SAVANNAH

Heavy Storm Is Now Raging Along the Atlantic Coast.

THE WORST IS YET TO COME

Train Was Sent To Bring the People Away from Tybee.

VESSELS ARE ALL SECURELY TIED UP

Wind Has Been Blowing Forty Miles an Hour and Rain Falling in Torrents.

Savannah, Ga., September 21.—(Special.) A storm equal in fury almost to last September's gale has been coming up the coast all day, but so far Savannah has been only in the milder edges of it, where the wind is blowing from thirty to forty miles an hour.

At Tybee, however, the wind has been as high as sixty-five miles an hour and some damage has been reported. A train was sent to the island this morning and most of the people there were brought up this afternoon. Some of them, however, persisted in remaining.

The wind and rain have been persistent all day, though the damage has been slight so far. A few buildings have been damaged by wind and water beating in, and some trees have been blown down. All of the tugs and the pilot boat Estill came up from Tybee this morning and no vessel has arrived and none has gone out today.

The Tallahassee for New York today postponed her trip until after the blow. Every vessel in port was made doubly secure in anticipation of a hurricane of the worst sort.

It is announced tonight that Savannah has not had the worst of it yet.

The storm center has passed to the east coast of Florida and is moving still in this direction. The wind is still blowing about thirty-five miles and hour and the rain is incessant. A number of wires are down to the south and they are working badly, but most of those to the north are in fair condition.

Savannah today was the coldest city in the United States east of the Rockies, the observation showing a temperature of 46 degrees at 8 o'clock tonight.

Great damage to the rice fields is feared, since it does not take such a heavy blow to destroy them. The late crop, much of it still on the ground and in its ripened state, is easily beaten off and scattered about. Sea island cotton also will suffer.

Much damage is anticipated even though the velocity of the gale should not exceed its present rate.

BRUNSWICK HAS SEVERE GALE.

Temperature Drops and Driving Rain Falls All Day.

Brunswick, Ga., September 21.—(Special.) Brunswick has bordered on a big storm, resembling in severity the worst of equinoctial gales, for the past fifteen hours.

The temperature has dropped considerably, accompanied by heavy winds and continued driving rains. There are indications tonight of increasing severity in the wind's velocity before morning dawns. Business has been practically suspended all day, and tonight the streets are dark, the electric light plant refusing duty.

CHARLESTON HAS HIGH WINDS.

Attempt Is Made To Burn a Church During the Storm.

Charleston, S. C., September 21.—(Special.) During the heavy windstorm here tonight an attempt was made by unknown parties to burn St. Mark's Episcopal, the most prominent church in the state.

The wind was blowing at the rate of forty-six miles an hour, but good work by the firemen saved the building.

STORM ROLLS OVER FLORIDA.

High Winds and Heavy Rains Cause Loss of Life.

Jacksonville, Fla., September 21.—Florida was visited by a West India hurricane tonight. The maximum was taken on the subject of good roads. He talked in a conversational way for nearly an hour, and was given careful attention.

A General Debate.

The sub-committee which had waited on the governor returned and announced that they had received a message which they would put in the form of a report and deliver at 3 o'clock. There being no other business before the assembly, adjournment was taken until that hour, when both bodies reassembled. The message from Governor Atkinson, which is printed above, was read and also the preliminary report

SILVER'S STRIDES EXCITE THEM

Rapid Advance of Rupees in India Causes Extraordinary Demand.

ENGLAND GROWS NERVOUS

Sees the Mistake It Made in Closing Mints to Free Coinage.

THE LONDON PAPERS COMMENT SEVERELY

Attribute the State of Affairs to the Wrong Course Pursued by the Government.

London, September 21.—The Standard publishes this morning a financial telegram received in this city from Bombay which says that the silver market there is very much excited and in strong demand, consequent on the up-country bazaar's anticipating that the Bank of England will be a probable buyer at an early date, while it is also believed that a further import duty is imminent and that possibly the Indian mints will be reopened.

The telegram further says that the price has risen in Bombay 7.14 rupees per 100 tolas since last Thursday.

Commenting upon this intelligence, The Standard says:

"All this serves to indicate what incalculable mischief comes by exhibits of humor in British affairs, when the directors of clearing houses could be relied upon to draw up a strong and emphatic protest to the government asking that steps be taken to end these amateur efforts to destroy confidence in the stability of our monetary system, which is slenderly enough supported by gold, as it is."

CLEARING HOUSE MAY PROTEST.

Bank of England's Effort for Bimetallism Meets with Disfavor.

London, September 21.—The Evening Standard today made the following announcement:

"So professedly moved is the city about the extraordinary letter of the governor of the Bank of England that a meeting of the representatives of all the banks in the clearing house has been called for tomorrow to discuss the situation. When the monetary system, which is slenderly enough supported by gold, as it is."

FORTY PASSENGERS DROWNED.

Two Steamers Collide and One Goes Down Quickly.

London, September 21.—A dispatch to The Daily News from Vienna says that while the steamer Ika, with a crew of ten and carrying fifty Austrian passengers, was entering the port at Fiume, on the river Plurima, this evening, while a storm was blowing hard, she collided with the English steamer Tyria, which was leaving.

The bows of the Ika were stove in and she sank in twenty minutes.

Boats were hastily put off and saved the captain and seven others, but most of the passengers were drowned.

The casualty took place in front of thousands who crowded the piers in the greatest anxiety and alarm.

HAWAII RATIFIES ANNEXATION.

Congress of the Island Republic Has Taken Action.

Chicago, September 21.—The Times-Herald special from San Francisco says:

"The steamer City of Peking, which arrived from the Orient tonight by way of Honolulu, brings word that the Hawaiian congress ratified the treaty of annexation on September 19th.

"There was no opposition and the unanimous vote was cast in favor of the treaty."

SIX CUBANS IN OPEN BOAT.

They Reach Kingston with News of Election and Victories.

Kingston, Jamaica, September 21.—Six Cubans arrived here yesterday in an open boat with dispatches for the New York junta in regard to the elections in Cuba and the recent victories of the insurgent forces over the Spaniards.

No communication, however, can be had with the new arrivals, as they are quarantined by the local authorities here, owing to the prevalence of yellow fever in Cuba.

These Men Figure in the Settlement of Georgia's Convict Problem.

GLOOM LIFTING FROM MOBILE

One New Case Only Found in the Gulf City Yesterday.

TYPE IS EXCEEDINGLY MILD

Some Physicians Assert That It Is Not the Malignant Disease.

IT DIFFERS FROM ALL FORMER SIEGES

Those Left in the City Are Inclined to a Brighter View and See No Reason to Leave Home.

Mobile, Ala., September 21.—There was another day of favorable report. There was one new case last night as reported in last night's dispatches, and there was another case this morning, a child named Willie Woodlee, living in the house with Mrs. Wooten, an earlier patient, at the corner of Canal and Conception streets in the infected district.

One case was discharged, leaving under treatment twenty-eight, all of whom are progressing favorably.

There have been but three deaths, and none since Saturday.

The physicians are beginning to shake their heads and declare that this is the most curious manifestation of yellow fever ever seen in the south. So many reported cases have failed to further develop the fever characteristics and not a few doctors seem to doubt the correctness of the diagnosis, and one of the most experienced doctors has been heard to say that he would not report any more cases as suspicious. He would wait until the symptoms became unmistakable.

Certain it seems to be that there is a great deal of a mild type of fever mixed with a very few cases of real yellow fever. One physician viewing another's patient said that if it was yellow fever he had eight cases like it in his practice, and not one of them was yellow fever.

Twenty-three cases are cited as showing how the fever differs from most types of the disease.

Arracine Marquez was sick four days without any attendance at all. He was up and down all the time, and had a high fever. On Saturday last he was taken in hand as a yellow fever patient. He ought to have been dead by that time. Sunday he vomited and was on the road to the other world. Monday he was still alive, and today he is convalescent.

Mayfield, a letter carrier, over ate himself and had an attack of cholera morbus last Wednesday. He had a high fever following, until on Saturday he called a doctor in and Sunday he was announced as a yellow fever patient, along with a batch of eleven turned in that day. He had no fever that day and none since.

Schamberger is from Indiana. He arrived here with his wife and five children on September 18th, or the day after, and he camped out without furniture or conveniences in a house on the corner of August and Lawrence streets while he waited for his location. He was in the sun for several days, walking many miles through the woods, during which time he drank copiously of a spring. That night he had a chill, came home and was pronounced a yellow fever patient. Meantime his family, sleeping on the floor in a malodorous part of the city infested with mosquitos, were all taken sick, and had no attention for two days. The wife and one child died. There has been no further spread in the family, peculiarly susceptible to the fever. It is the fever, and all who are sick are convalescing.

No wonder the old doctors shake their heads and discuss whether the enemy they are fighting is the yellow jack of '78, '79 and '83.

Experts Declare It Mild.

Dr. T. O. Summers, representing the Tennessee board of health, has spent two days here. He made two trips to the persons sick of fever, one by himself and another in company with the Mobile physicians. He and the board here, were in

consultation a few days ago, and it is his opinion that this is an exceedingly mild type of yellow fever, all the characteristics being present, but in exceedingly mild form, so mild, indeed, that if there had not been the suspicion raised by the outbreak at Ocean Springs, the symptoms would probably have passed unnoticed. He is loud in his praise of the way the board has fought the disease, and of the general cleanliness of the city.

Comparing the condition with what it was on the occasion of his last visit here in 1888, he finds it a wonderful improvement. He says:

"The disease is of the mildest form ever known in the history of yellow fever, and it is indeed doubtful if the board of health of Mobile had full away from the people and with the methods long adopted to preserve public confidence, whether there would have been even quarantine established against the city of Mobile."

"Co-operation with the New Orleans board could have corralled the fever within the limits of the first appearance. The effort to suppress this, however, upon the part of the board outside the Gulf coast of Alabama was the great cause of the stampede so disastrous to the commerce of the city and state as well as of those states above which rely upon the integrity of the health boards against the Gulf coast. The action of the Mobile board of health is most highly commendable, and to it is due the fact that the other states have suffered from the influx brought to bear upon the people from outside its borders. The board has worked against great odds and has accomplished more than any board of health has accomplished under similar circumstances, and this state as well as other states owe it an eternal debt of gratitude."

Traffic and Travel.

Traffic is picking up daily, despite the rigid quarantine maintained. The Mobile and Birmingham road today got through with its local and through cotton and some through freight for the first time since the 12th.

The first lot of refugees from the Mississippi, which got in this morning per steamer Georgia that had been quarantined at Fort Morgan, in the lower bay. There were eleven in the passenger list, including Miss Maud Miller, of Ulica, N. Y.; Mr. and Mrs. W. C. Morgan, of Detroit; Judge T. Crowley, of Alexandria, mayor of that city; B. F. Dickson, of Evansville, superintendent of the Evansville division of the Louisville and Nashville road, and Mrs. M. P. Petalica, of Houston, Tex. The United States had been ordered to hospitalize all the refugees. When the customs agent went to Fort Morgan to the lower bay to see about the proposed transfer of the custom house from this city to that point, the engineer in charge refused to admit the custom house man without a permit of the secretary of war.

The captain of the British steamer Clearwater, learning of the predicament of the officials, courteously offered his vessel now lying in the lower bay.

The ship is a floating palace, and the officials would be in clover on board, but they have decided that just yet there is no need to remove the offices from the city. Rev. Father Murray of St. Vincent's parish, is reported to be sick with the yellow fever tonight.

CHARLESTON WANTS COTTON.

Palmetto Metropolis Modifies Her Quarantine Laws.

Charleston, S. C., September 21.—(Special.) The board of health of Charleston tonight passed the following resolutions:

"Resolved That the products of the farm and manufactured goods except sugar, rice and molasses will be permitted to come into Charleston from Atlanta, provided it does not originate in any infected portion or places."

This raises the quarantine on Atlanta cotton.

Savannah's board of health sent a representative to the meeting to submit a proposition that Savannah would continue to fumigate all Atlanta stuffs and examine passengers if Charleston would not quarantine Savannah. No action on this was taken tonight.

A physician will be sent to Atlanta tomorrow to issue certificates to all passengers coming to this city.

MERIDIAN HAS CUREFEW BELL.

People Are To Be Kept Out of the Way of Yellow Fever.

Meridian, Miss., September 21.—(Special.) For the first time in her history Meridian exists under a "curfew law."

A meeting held last night the municipal boards passed an ordinance providing for the striking of the city bell at 9 o'clock P. M. when all business ceases, and at 9 o'clock no persons are allowed on the streets unless they have important business.

The measure is working most satisfactorily and the authorities think it will conduce greatly to preventing any infection from the fever districts. The situation here remains unchanged. Business is rapidly reviving.

MANY MORE NEW CASES REPORTED

But All of Them Seem To Be of a Very Mild Type.

ONLY A FEW DEATHS RECORDED

New Orleans Shows Up with Nine New Cases.

LARGE NUMBER CASES AT EDWARDS

Physicians Are Surprised That the Ratio of Death Is So Small—Reports from the Stricken Districts Giving the Latest News.

New Orleans, September 21.—There were nine cases of yellow fever reported to the board of health this afternoon at 6 o'clock, when the day's work of the physicians ended.

There were, however, no deaths recorded, and the doctors all agree this evening that the situation was steadily improving.

The fever at present, instead of developing into a malignant type, is mild, if it is not milder than when it first appeared here, as witness twenty-seven cases in two days, without a single death. Tonight the inspectors of the board of health reported most of the cases that had come under their observation were progressing most favorably. There are only two cases which give the attending physicians any reason for alarm. These are the new cases today:

JOSEPH ROTH, 1124 Clouet street.
FRED GUNN, 323 1/2 St. Charles.
CHILD of Judge Lee, 101 Dublin.
E. F. REYNOLDS, 126 Coliseum.
MRS. NELLIE SCANNELL, 1111 Berlin.
C. W. WOOD, 185 Octavia.
R. F. REYNOLDS, 126 Coliseum.
S. F. MAJOR, 108 Laurel.

Some new places of infection are included in these cases, but it is stated tonight that each one of the patients is doing well, and that there is no immediate danger of a fatal termination in any of these cases.

Up to the present time there has been little dread of the fever. Sporadic cases are appearing about town, but the doctors so far have been enabled successfully to quarantine each case as it appeared. Confidence locally is steadily increasing. There never was a large measure of apprehension in New Orleans, but the city seems now to have settled down to the belief that there is absolutely no danger of an epidemic, and that within a brief space of time, even before frost, the physicians will have completely stamped out the sickness. A number of new cases were discharged yesterday and today, and the number of cases receiving strict attention today does not exceed ten.

Half a dozen towns today, by telegraph and telephone, notified the authorities here that they had concluded to withdraw their restrictions against the receipt of freight from New Orleans. The circular issued by President Olliphant and Dr. Carter, of the marine hospital service, seems to have reached all sections of the state, and authorities in the smaller towns seem to have decided that there is no danger in receiving from New Orleans properly fumigated freight.

Dr. Holt Before the Board.

The most important happening of the day was the appearance of Dr. Holt before the board of health. Dr. Holt was charged with having failed to promptly report cases in his practice, and it was currently believed that the body would, after its meeting with the doctor today, decide to prosecute him in the courts for failing to observe the ordinances which he had himself written and had passed.

The board of health met at 1 o'clock, and Dr. Holt appeared. Attorney B. B. Howard represented the board. In answer to inquiries Dr. Holt said that he was familiar with the city law which required physicians to promptly report all cases of an infectious nature which might come under observation. The doctor said he knew that physicians were liable to a fine of \$25 or imprisonment for thirty days if they did not observe this ordinance. He said he had seen his first case on Friday last, and he had reported it to the board. The symptoms were those of yellow fever. Subsequently he had seen other cases, and the symptoms were similar. He had carefully diagnosed his cases and on the 12th he had been forced to the conclusion that they were suffering from yellow fever. When he had become convinced of that fact he had become immediately to report the cases to the board, and had done so by mail. There was a running debate between Dr. Holt and the attorney for the board, and Dr. Holt finally said:

"As the attorney and the board have seen fit to ask a few questions myself, I am a citizen of the United States and of the state of Louisiana, living under the law and obedient to all its mandates, and I now ask of you all to inform me, by what right I am called upon—not invited to appear before this body and explain a seeming neglect on my part in not reporting cases which have come under my observation?"

President Olliphant insisted that Dr. Holt had been courteously invited to be present, but the doctor disagreed with the president.

Created a Sensation.

"Now, gentlemen," he said, "as you have utterly failed to show your right in summoning me here, I respectfully bid you

Continued on Third Page.

ROME MAY HAVE NEGRO POSTMASTER

The Return of T. M. Dent from Washington Creates a Stir.

HE HAS SEEN THE PRESIDENT

His Friends Say That the Postmaster-ship Is His for Certain.

VANDIVER WILL HAVE TO STEP OUT

Although He Has Three Years To Serve, Party Exigency Calls for a Change.

Rome, Ga., September 21.—(Special).—A colored postmaster for Rome has been named.

Rome is in the throes of the greatest sensation that she has known for a long time, and in all probability the wrath of the majority of her citizens was never before wrought up to the pitch that it is now, over the rumors to the effect that the present postmaster, John M. Van Diver, who went into office under the democratic administration, will be ousted, and that T. M. Dent, a prominent colored republican leader of this section, who has just returned from Washington, will be given his job.

Dent Was Quiet.

The candidates for office are numerous, and the fight has been on for some days. During this time Dent kept quiet, and little was thought of it when his friends first announced that he would be an applicant for the position of postmaster, until it was learned last week that he had gone to Washington city, carrying with him endorsements from a number of the most prominent republicans in this congressional district.

He Smiles Serenely.

On returned this afternoon, and when asked if he thought his trip to the capital a successful one, he replied with a confident smile by saying that he was yet to be seen. He would have nothing further to say upon the subject. It is learned tonight that M. C. Parker, Dent's right-hand friend, who is one of the best known negro politicians here, is making preparations to leave for Washington tonight, and it is generally believed that his trip will result in the negro applicant's being appointed.

Who the Negro Is.

Dent, the negro applicant, is one of the most prominent negroes in this city and is superintendent of the negro public school of Rome. He is known throughout the state for his prominence in educational work, and has for several years ranked among the foremost leaders of his race in the state. Should he get the appointment serious trouble will likely follow, as Mr. Van Diver, the present postmaster, is decidedly the most popular official that has ever filled that office here. Should he be dismissed the people say they at least want a white man put in his place and not a negro.

Rome Is Indignant.

Public indignation is running high. So profound is the sensation that has originated from the likelihood of Rome having a negro postmaster that the people have forgot all about the yellow fever scare, which was on the lips of every one yesterday, and the sole topic in Rome tonight is "what will we do if a negro is appointed to the office?"

STREET CAR MEN MAY STRIKE.

Conductors and Motormen Have Sympathy of Macon People.

Macon, Ga., September 21.—(Special).—The trouble between the Consolidated street railway and its men is not yet at an end.

A committee appointed last night at a meeting of all the conductors and motormen met Manager Winters this afternoon and discussed the proposed reduction, but the men do not appear to have secured much satisfaction.

Manager Winters still contends that the reduction is not a reduction, but the men who had been receiving \$6 for fifty-three hours' work, and who are now required to accept \$5.20 for exactly the same service, cannot see it that way. The men understand that \$1.80 for eighteen hours' work is a trifle less than \$2.25, the amount heretofore paid them.

The Macon public is thoroughly in sympathy with the men, and it is possible that public sentiment may force the company to back down.

The men do not seem inclined to strike, although many say they will throw up their jobs rather than work for less money. It is generally conceded that the men are already overworked and underpaid, and that the public has sided with them so universally, the men feel inclined to assert their rights. They are evidently awed, however, by the fact that they have families to support, and cannot afford to be thrown out of employment.

All of the men are efficient at work, and there has been no trouble of any kind today.

Preston Released on Bond.

Huntsville, Ala., September 21.—(Special).—Robert Preston, charged with murder in the first degree, was given a preliminary trial in the county court yesterday and was bound over to the next grand jury. He made bond to the amount of \$1,000. Preston killed Simpson, a white farmer, last week at Plevna. He entered a plea of self-defense.

GIBSON BOYCOTT WAS A BOOMERANG

Boycotters of the Postoffice Hurt by Their Own Action.

OBJECTED TO REPUBLICAN

Mailed Letters on the Cars To Spite Him.

THE MAIL BOXES WERE ORDERED LOCKED

Citizens Had To Surrender and Now New Postmaster Is Triumphant—By Canceling Stamps.

Hogansville's method of boycotting government postoffices doesn't find favor with Uncle Sam.

Gibson, in Glascock county, has been the seat of a lively boycott war which has just ended in the surrender of the men who tried to run the government in opposition to the men who had been selected for that purpose.

A short time ago a new postmaster was appointed at Gibson. He was a republican and the citizens naturally resented his appointment over a democrat; that is, some of the citizens did.

It seems that the best and most conservative citizens did not object to the new postmaster, who is the railroad agent at Gibson. He is a man of good reputation and most friends in the town.

The retiring postmaster was the head of all the trouble. Like the retiring postmaster at Hogansville, he wanted to keep the office in defiance of McKinley. He marshaled his forces into line and they agreed upon a boycott of the new postmaster. They agreed not to patronize the postmaster at all. All of them were to mail all letters on the cars, and not give the postmaster the benefit of the cancellation of stamps. They allowed the postmaster to receive and distribute their mail, as this was trouble to him without pay.

This boycott has been in operation for some time and the new postmaster has lost considerable money. He had the cars and then he appealed to the Washington authorities. A postoffice inspector was sent to Gibson to examine into the situation. He saw the postmaster and he made a report to the postmaster general giving the exact situation.

The report was followed by an order from the postoffice department that completely crushed the nice little boycott. While the Gibson boycotters were rejoicing over the receipt of the news that no more mail could be put on the cars.

One morning they all awoke to find that the cars were no longer to be used. The train pulled up and stopped. They made a rush for the box on the side of the car. The lid was closed and locked. The train pulled out, leaving the letters unmailed. This was not understood at first. Every time a train passed it was examined, but all mail boxes were closed. It gradually dawned on the minds of the people that the government had interfered with their boycott.

Sadder but wiser the disgruntled boycotters marched down to the postoffice and deposited their accumulated mail. The republican postmaster was kept busy for some time canceling stamps on the mail which had been lingeringly mailed with him.

Now the people of the town all patronize the postmaster. They can't put their mail on the car, as the order is still in effect. The drop boxes are closed and locked for several miles on each side of Gibson.

The same remedy is now having a good effect on Postmaster Loftin's business at Hogansville.

HOGANSVILLE BEFORE CABINET.

Meeting of Postmaster Loftin Discussed in the White House.

Washington, September 21.—The case of Postmaster Loftin, of Hogansville, Ga., who was shot and slightly wounded some days ago, came up for consideration in the cabinet meeting today.

The report of the agent sent to Hogansville by the postoffice department to make an investigation was presented by Postmaster General Gary.

It is said that the report showed that the postmaster was not at all dismayed by the course events have taken and was fully determined not to yield up his position because of the prejudice against him on account of his color. It is said the report touched upon the men's appointment, showing among other things that he was highly respected, having been elected by white votes to the position of a teacher in the public schools.

No action was taken for the present, the cabinet hoping that the calm judgment of the people of Hogansville will prevail and Loftin be permitted to continue the duties of his position without molestation.

TO HANDLE COLLIDING ENGINES.

Two Well-Known Engineers Will Take Part in the Carnival.

Macon, Ga., September 21.—(Special).—Two of the most noted engineers in the state will run the two engines which are to take part in the collision at Central park October 12th.

The Central engine, "Nancy Hanks," will be run by Wallace Scoville, of the Southern railway, from Union to Tifton. The Georgia Southern engine, the "Dixie Flyer," will be run by Henry Speir, another well-known engineer.

NEGROES GO TO LAW TO GET HIGH SCHOOL

Richmond County Board of Education Must Appear in Court.

WANT WHAT THE WHITES HAVE

Directors of Education in Augusta Have Offended the Citizens.

CLAIM THEY ARE DISCRIMINATED AGAINST

Petitioners Declare That the Black Race Are Entitled to the Equal Benefits of Taxation.

Augusta, Ga., September 21.—(Special).—During the summer vacation the Richmond county board of education abolished the negro high school in Augusta.

The matter was brought before the board several times by friends of the school and there was an earnest effort to have the action reconsidered and the school reopened, but the board steadily refused.

Now the question has been taken into the courts to force the re-opening of the school by law.

Two petitions have been brought before Judge Calloway signed by prominent negro citizens alleging that a tax is collected for the purposes of giving equal school privileges to both white and colored children and that only one race has the benefit of tax as to the high school.

The petitioners hold that this is an unconstitutional discrimination against the negro. They ask that the tax collector be enjoined from collecting taxes and that the board of education be enjoined from disbursing the funds for the Talmann High school.

Judge Calloway granted a rule nisi requiring the tax collector and board of education to appear before him on October 12th and show cause why this injunction should not be granted.

Another petition was also filed asking that the board be required to establish a high school for colored children.

Judge Calloway granted a mandamus requiring the board of education to appear before him on the same date in October and show cause why it should not be compelled to establish a high school for colored children.

The cases will attract much attention.

The board of education decided that the high school for negroes wasn't worth as much as it cost and the money could be expended for primary schools for negro children, but the negroes are quite wrought up over the abolishing of their high school and are determined to have it.

PASSENGER MEN RETURN.

The Southern's Representatives Had a Pleasant and Profitable Conference.

The Southern railway's passenger officials have returned from their conference at Asheville.

Thirty-seven of them attended. Among these were the agents from California, Boston, Chicago, Florida and Texas. These points show an especially good system.

Some of them had never seen Asheville, but they spent three days in the Land of the Sky and took in all the points of interest.

The Southern's passenger business has shown a marked improvement all summer. August was an especially good month for passenger business. The report travel was fine. The passenger agents said that the industry pointed to heavy tourist travel during the winter. Florida, South Carolina, Asheville and western North Carolina are the Southern's strong winter resort points.

Mr. M. R. Powers, the Southern's passenger agent at New Orleans, was unable to attend the conference, having been injured recently in an accident. His assistant, Mr. H. H. Hardwick, Bensinger and W. H. Taylor, and the general passenger agent, Alex. Thawatt, were there. The men had a delightful visit and before leaving formally expressed their thanks to the management of the system for the special trains and handsome treatment.

Agents Must Seal Cars.

The Maine Central has put new orders in effect regarding the sealing of freight cars. Heretofore it has been customary for conductors or brakemen to use the seals, but under the new regulation this duty devolves upon the station agents or their authorized representatives. The agents must keep a record of the seals, when broken or placed on the cars.

The only time when train hands can use the seals is when a car is removed from a siding between stations or when arriving at night at a station where an agent is not required to be on duty. Then the seals must be used only by the conductor, who is required to make a report of the fact to the nearest station.

In case a conductor has to remove a seal at a station where there is no agent on duty, he must preserve it to hand in with his report.

Excursion Rates.

Excursion rates on the certificate plan have been arranged for delegates and members attending the Farmers' State Alliance at Jackson, Ala., today and tomorrow. The Baptist association at Shelburne, Ga., September 25th to October 4th; Baptist association at Tifton, September 29th to October 7th; Association for the Improvement of Western Waterways, Davenport, Ia., September 29th to October 7th.

Western and Atlantic railroad will sell tickets from Atlanta, Rome, Greenville and intermediate stations to Nashville and Memphis, Tenn., for the purpose of attending the annual convention of the United States and Canada, has just returned from the fourteenth annual convention of the association, which has just closed at Boston, Mass.

Mr. Dorsey is the manager of the Excelsior steam laundry here. He was the only Georgian in the entire delegation, numbering nearly 50.

According to Mr. Dorsey the convention was the most successful and pleasant ever held. The Boston people treated the visitors in a very handsome manner and they had a royal good time during the two weeks of their stay.

The only matter of importance transacted at the convention was the abolishment of the insurance feature of the association. Heretofore the association has been a mutual benefit organization and upon the death or sickness of a member the other members of the association were assessed to make up an insurance of several thousand dollars if death or a weekly allowance in case of sickness.

This feature was abolished, but Mr. Dorsey says that it was confident that it will be re-established at the next convention. The association will convene in St. Louis next year. None but owners or stockholders of laundries can belong to the association.

A Builder's Experience. A USEFUL LIFE RENEWED IN A REMARKABLE MANNER.

Udney Y. Wilson Was Near Death's Door. Doctor's Failed to Help Him—A Home Remedy Succeeded in Saving His Life.

From The Evening News, Detroit, Mich.

Udney Y. Wilson, contractor and builder, living in Detroit, Mich., at 87 High street, said regarding Dr. Williams' Pink Pills for Pale People: "For years I have been out of doors in all kinds of bad weather, looking after my building contracts. I have worked many days in the rain and cold to complete some building. About two years ago I noticed I could not get around as I should, and commenced to have a severe pain in my back. I tried the usual remedies without getting any relief, and for nearly a year I suffered intensely. I kept up as long as I could, as I had several contracts for buildings that had to be completed.

At night I could not sleep. My physician said it was my kidneys and every day I went out doors they would keep me nearly all the following night. Instead of getting better I became worse, and a great deal of my business was lost. I must go back and go to bed, or he would not be responsible for my life.

All the medicines I took only helped me temporarily. Some days I would feel better and go out for a day only to be confined to my bed for weeks at a time. One day my wife suggested that I try Dr. Williams' Pink Pills for Pale People, and I laughed at the idea.

"But I will take almost anything in the hope of relief, I tried the pills. They were sold by all dealers, or I would not acknowledge it and said it was the other medicines that had just commenced to work.

October 5th and 6th; Epworth League conference, Dawson, Ga., October 7th to 10th; Danvers, the Conference, New Orleans, Ga., October 10th and 11th; Christian churches, national convention, Indianapolis, Ind., October 12th to 15th; Ancient Free and Accepted Masons, Atlanta lodge No. 38, Atlanta, October 15th to 17th; Eastern of Women's Clubs, Rome, Ga., November 24 to 26th.

WALTHOUR IS NOW INDOOR CHAMPION

Defeated Jay Eaton in an Exciting Race Last Night.

LARGE CROWD WAS PRESENT

Atlanta Boy Given a Rousing Reception as He Passed the Tape.

THE CONTEST WAS WON IN TWO HEATS

Last Heat of Three Miles Was Run in 6:37—What the Ex-Champion Has to Say.

The great Jay Eaton, long heralded as the "indoor champion of the world," met the surprise of his life last night, and also met the first man who has been able to show more speed than he could.

It was left to Bob Walthour, the southern champion, to defeat the board track champion, and Walthour literally rode him over his wheel. It was not necessary to ride the third heat, for Walthour won the first two heats with room to spare. The first heat was one mile and was paced by a tandem. The tandem carried the men four laps and then dropped out. As the tandem stopped, both men slackened their speed and it was evident to the crowd that they were both waiting what the other would do.

Eaton was in the lead, but in a second Walthour was by his side. As they came onto the stretch on the fifth lap they were both side by side and watching each other like hawks. On the back stretch they were going at a terrible speed and were riding right together. As the last curve was reached Walthour had the pole and Eaton tried to go around him, but it was more than he could do and as they came into the stretch Bob was a good wheel length in front of the ex-champion. Eaton was not fast enough to close up the gap and when the tape was crossed he had fine view of Walthour's rear tire. Time, 2:11.

The crowd went wild and the betting immediately changed from 2 to 1 on Eaton to even money. It was plain to all the men who know the game that Eaton had done his best, but there were many in the audience who claimed that he had something up his sleeve. If he did it is still up there and he is still waiting to bring it out.

If possible the second heat was prettier and more exciting than the first. It was three miles in length and paced by two tandems. At the start Walthour caught the pace and held it till the sprint. When the pacers dropped out there was no waiting like there was in the first heat. Both men seemed to know what they wanted to do and they did not lose any time in doing it. Eaton was in the lead just before the bell rang for the last lap, but in the stretch Walthour took the lead and also the pole and Eaton had to ride on the outside. On the back stretch both men made an extra effort and the crowd sent up a howl as Walthour was seen to gain on his rival. On the last curve Bobby caught the pole for it was more than he could do and as they flew into the stretch the champion of the south was riding "gone," as the racing men say. Time, 6:37.4-5.

Eaton Seemed Dazed. Eaton seemed dazed and surprised, as he doubtless was, for he has never before found the man who could do him as Walthour did last night. Walthour not only showed more speed, but he showed a better knowledge of the game. Eaton was not far from being away from Eaton throughout the entire race and Eaton was very much worried because he could not get it away from him. But it is impossible for anyone to hug the pole closer than Walthour does, for all round the track it looks as if he would be scraped off of his wheel.

When Walthour won the second and final heat the crowd howled itself hoarse. The scene was indescribable. Everything seemed to be in a state of confusion. Up in the wild enthusiasm everybody seemed pleased, for Walthour is the great favorite in Atlanta.

Walthour was in a front box and her face was a study during the race as her eyes followed the riders around the track. On the last lap the excitement in her face was noticeable, but it was nothing but the joy that she had when her husband came over the tape a full length in front of the champion of the world. She had just cause to feel proud of him, for he is a great race and he proved by it that he is among the best riders in the world. His last match will probably be with Eddie Egan, but that will come later on. He is entitled to rest on his laurels for a while now.

THE OTHER RACES.

The other races on the programme were good, but there was so much interest in the match race that no one paid much attention to them. The mile open was won by Bert Repp, Chapman second and Speer third. Time, 2:13.

The invitation race of one mile was won by Steinbecker, Kline second and Russell Wain third. Time, 2:21.5-5.

The consolation race of one mile was won by Elliott, Gill second and Mangum third. Time, 1:35.5-5.

The crowd was unusually large and they were all loud in declaring them the best races yet held at the coliseum.

COOPER WON RACE AND \$1,000.

Mile Race Run Under Auspices of the Albany Wheelmen. Albany, N. Y., September 21.—Tom Cooper carried off the honors in the mile match race for \$1,000 with Eddie Egan and Arthur Gardner, held under the auspices of the Albany wheelmen in this city. It took three heats to decide the race, Bald winning the first heat by an open length in 2:31.

Cooper had the pacemaker's wheel in the second heat and when the latter dropped out at the last quarter Cooper made a sudden jump and led into the stretch by ten yards.

ARROYO WAS TIED UP BY THE THUMBS

Man Murdered for Assaulting Diaz Will Be Avenged.

THE LYNCHERS WERE POLICE

Investigation Develops That Sworn Officers Had Hand in the Crime.

THE PRESIDENT OF MEXICO IS INDIGNANT

Mob Will Find That It Has No Friends in the Republic Across the Rio Grande.

City of Mexico, September 21.—The murder of Arroyo, presumably by members of the police, continues to be the one topic of discussion in this city, and newspapers set extra editors in order to supply the demand of the public.

Fresh arrests have been made today, mainly among the officers attached to the second police station, supposed to be implicated in the bloody drama. One of the men arrested, named Carmon, is alleged to be the person who wielded the dagger so effectively.

Among those arrested are servants of the late inspector general of police and the assistant chief of detectives, it being be-

lieved that they know much of what took place. If they are not indirectly implicated in the killing, all these prisoners were consigned to the grim old prison of Belen.

It is said some of the chief prisoners, including the inspector general and assistant chief of detectives, are confronted by innumerable proofs that the police were the real authors of the crime, and have begun to admit their knowledge of the affair.

Probably the man most intimately connected with the inspector Villavicencio, of the second station, who was said to have suggested the killing of Arroyo and disguised the secret police and gendarmes, who penetrated the police headquarters where their helpless victim lay.

Tied Up by the Thumbs. Another version which newspapers are giving as a rumor, is that for excellent reasons felt sure that Arroyo had accomplices. Failing to secure from him an admission confirming their suspicions, they proceeded to strangle him by the thumbs, and he being an epileptic, went into a swoon, when they thought him dead, and the idea arose of getting up a pretended lynching in order to prevent the blame coming upon themselves.

The hall of the chamber of deputies was crowded to overflowing this afternoon on the occasion of the appearance at the bar of the house of the minister of the interior. He held that inasmuch as from the report of the chief of police, it was evident the criminal had not been properly guarded and not been confined in the proper place, and as this implied a serious responsibility for the police, the president had ordered that the chief should at once be discharged, and that another be appointed to take his place, provisionally.

He said the president has felt the utmost indignation at the presence of this crime, and has asked and will continue to ask the judge in charge of the case to take the full rigor of the law may lay on the guilty.

The speaker of the chamber said the chamber gave its cordial approval to the rigorous instructions issued by the executive.

BIG SHOOT COMES MONDAY

Second of the Local Contest Will Occur on That Day.

INTEREST RIFE IN THE CONTESTS

Challenge of the Sturdy Horse Guards Stirs the Pride of the Gallant Fifth Regiment.

The shoot of the first battalion of the Fifth regiment will take place on the Lakewood range on next Monday beginning at 2 o'clock. All the companies of the first battalion will have teams out and some good shooting will be done.

The woman, whose name was Lula Carter, or Wooten, was married to the Grady woman who said she had swallowed a fatal dose of morphine.

The woman, whose name was Lula Carter, or Wooten, was married to the Grady woman who said she had swallowed a fatal dose of morphine.

She stated to the officer that she had made up her mind to die and had left a will. The will was a scrap of paper, containing the following words:

"Miss Jennie—Please receive my things. Give Ella the money. Give Nellie my clothes. Give Mollie something. Give Lilla Beauford an apron. From Lilla Wooten, better known as Lula Carter."

The woman contended that she had taken a large quantity of the deadly drug, but as nearly an hour had elapsed since she swallowed the alleged poison, the officer did not think she had attempted suicide.

BREATH OF WINTER TOUCHES ATLANTA

Fires and Overcoats Are in Great Demand

Just Now.

ALMOST TO A FREEZING POINT

Another Drop Like This Would Mean Ice and Frost.

ALL RECORDS SMASHED BY THE COLD

Yesterday Was the Coldest September Day Atlanta Has Experienced in Nearly Twenty-Five Years.

COOLER than has been known on the 21st of September in several years caused bright fires to blaze merrily, overcoats to be brought out and coal wagons to make their appearance yesterday.

The day just passed was the coldest September day Atlanta has experienced in nearly a quarter of a century. Last night beat all previous records for cold, the mercury dropping as low as it usually goes in December.

Cold winds greeted the early riser, and a frosty, gripping feeling in the air made one shiver, but that was but a beginning. In the afternoon the thermometer took a downward dip, and by 10 o'clock last night overcoats were indispensable to those so unfortunate as to be out of the house.

Five-six degrees above zero was the lowest temperature registered before 2 o'clock last night. Within two hours the temperature fell several degrees, and at midnight it felt at least 10 degrees colder than at 7 o'clock.

Since the weather bureau was established here, twenty years ago, the lowest maximum temperatures for September 21st have been in 1885 and 1890, both at 65 degrees.

As both the lowest minimum and maximum fell on yesterday, it was the coldest September 21st ever recorded in Atlanta.

The maximum for yesterday was not quite 64. The thermometer registered 62, which was the lowest maximum ever recorded for this particular day.

It will be colder today. The Washington bureau predicts fair weather for interior, but a heavy rain or snow storm is expected to sweep over the coast from the north.

Following is the maximum and minimum temperatures for each day of the month, as reported by the official weather observer:

Date.	Max.	Min.
1897.....	64	42
1896.....	62	40
1895.....	65	43
1894.....	63	41
1893.....	61	39
1892.....	60	38
1891.....	59	37
1890.....	58	36
1889.....	57	35
1888.....	56	34
1887.....	55	33
1886.....	54	32
1885.....	53	31
1884.....	52	30
1883.....	51	29
1882.....	50	28
1881.....	49	27
1880.....	48	26

Weather Notes and Forecast.

At 8 o'clock last night there was a high pressure area that extended from the east coast of North America to the west coast of Central America, the highest pressure being at New York city. There was a low in the north and another of lower pressure off the east coast of Florida.

Clear weather generally prevails, except at Chicago, and the Atlantic coast from Norfolk, Va., to Jacksonville, Fla., and as far west as Chattanooga, Tenn., over which territory was cloudy with rain for some miles inland from the coast.

Light rains were reported from Savannah, Wilmington, Charleston, and heavy rainfall of 2.58 inches from Jacksonville, Fla., to Jacksonville, Fla., and as far west as Augusta, Ga.

Savannah reported the lowest temperature—48 degrees. The temperature was low along the coast and higher west of the Mississippi.

A heavy storm was central on the south Atlantic coast, and extended from Savannah, and eventually working its way northward. Savannah reported a wind velocity of 30 miles per hour, and a barometer of 30.05 miles per hour, and Jacksonville, Fla., 30 miles per hour.

The forecast for the state for today is generally fair, preceded by showers in the southeast portion; warmer.

Local Report for Yesterday.

WATER MAIN BURST.

Was Caused by the Laying of the Gas Main on Decatur Street.

One of the water mains burst last night on Decatur street, near the corner of Forsyth street.

The break was discovered by Patrolman Hewell, who heard water roaring like it does when it comes down at Tallulah Falls. He secured a lantern and found the water was running in a gutter.

The break was caused by the laying of the gas main on Decatur street. It was found that the gas main was laid over the water main.

For a while it looked as if a portion of Decatur street would be flooded and the broken pipe had not been looked after there would have been a great loss of water during the night.

Hendersonville, N. C., Sept. 21, 1897.

Hendersonville, N. C., September 21, 1897. The floors of the Arlington house are open to all persons who desire to come to the mountains. Terms reasonable. Arrington House, Hendersonville, N. C.

MISS ROBERTS BADLY BURNED.

The Sixteen-Year-Old Daughter of Mr. J. R. Roberts May Die.

Lithonia, Ga., September 21.—(Special.)—Miss Bella Roberts was so badly burned today that her life is despaired of. While walking near the fire her clothing caught and she was quickly enveloped in flames, burning the surface of the entire body.

BREATH OF WINTER TOUCHES ATLANTA

Fires and Overcoats Are in Great Demand

Just Now.

ALMOST TO A FREEZING POINT

Another Drop Like This Would Mean Ice and Frost.

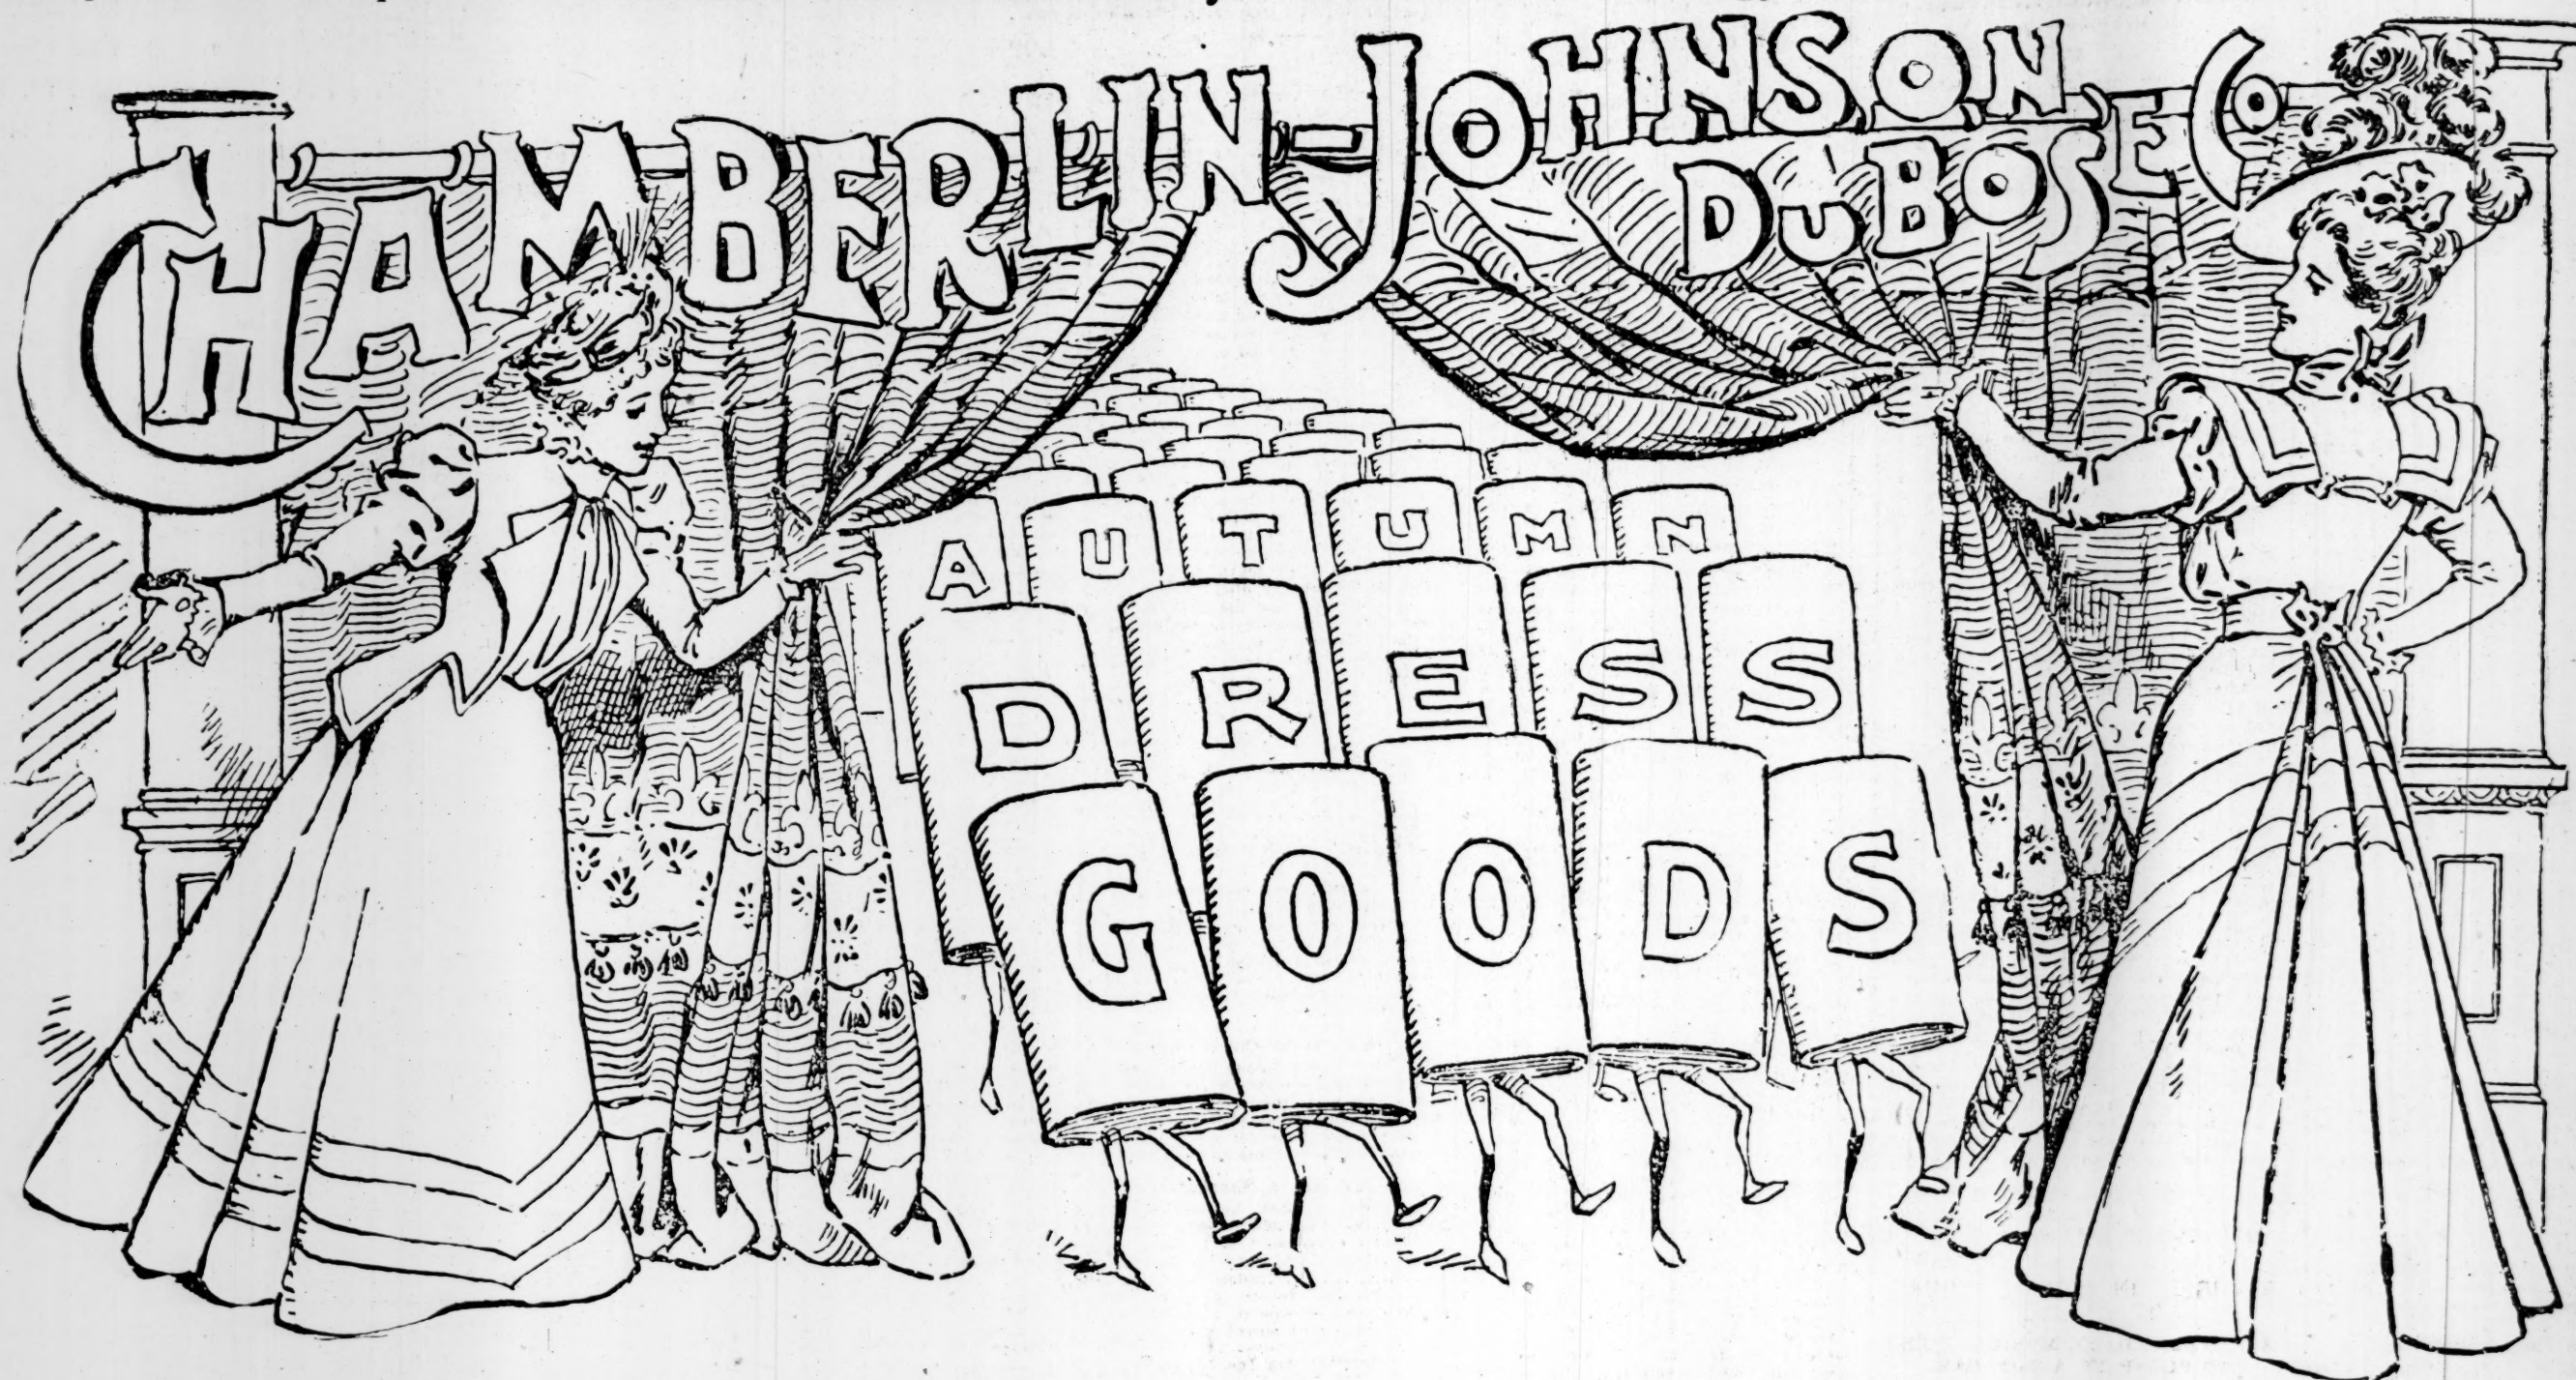

ALL RECORDS SMASHED BY THE COLD

Yesterday Was the Coldest September Day Atlanta Has Experienced in Nearly Twenty-Five Years.

COOLER than has been known on the 21st of September in several years caused bright fires to blaze merrily, overcoats to be brought out and coal wagons to make their appearance yesterday.

</

There was a rousing crush here yesterday that made us think of the inspiring Christmas time. It began early and lasted until late. A few people were elbowed and jostled a bit, but good nature and geniality prevailed just the same. Common-sense teaches that you can't mingle in a great crowd and remain entirely serene and unscathed. Some of these days we'll have more space for such impetuous rushes. Present quarters will be enlarged and improved. We must apologize for the inadequacy of our salesforce. The men worked like Trojans and flashing scissors were rapidly unsheathed, but at times customers were forced to wait. (Dress Goods salesmen in search of positions will please communicate with us immediately. None but men of energy and large experience need apply.)

Our Dress Goods Supremacy Is Acknowledged and Assured

Brilliant Fabrics From Two Hemispheres

The Display and Sale of Novelties Continues Today

The Autumnal Textiles are in radiant profusion on our counters. No store in the South ever exhibited so much exclusiveness and elegance. There are gorgeous groups of stuffs from Paris, Vienna, Picardy, Roubaix, Glauchau, Gera, Bradford, Leeds, Glasgow and other famous trans-Atlantic manufacturing cities. We selected the best that the makers of France, Germany, Austria, England and Scotland have produced, and you are invited to examine them while they are yet in their exquisite state of freshness and beauty. There are multitudes of plain weaves in mono-colors, and an aggregation of fancy effects in multi-colors showing designs and combinations that are too kaleidoscopic for any advertising pen to describe.

The expression of many of our ultra, swell styles are seldom the same twice. Their silk-and-wool surfaces shimmer, change and vary with iridescent tints that are transient or permanent, according to the angle of light that falls upon them. The richness and extent of our Dress Goods stock appeal to every woman who will choose her Fall costume with an eye to the possibilities of economy and fashionableness.

50c

For Dress Goods worth 75c, including Storm Serges, English Cheviots, French Serges, Two-toned French Granites, English Curl Cloth, Heather Cheviots, Checked Cheviots, Matelasse Plaids, Whipcords and Corkcrew Diagonals, in newest combinations of blue and black, green and black, brown and black, helio and black, blue and green, red and black and scores of others.

Suits Completely Overdone....

To the new goods for Autumn. Suits for Men, Youth and Children in assortments so large that extremes of every proper taste may be satisfied. There are many excellent styles in Worsteds, Cheviots and Cassimeres—all new and elegant. The prices are very much less than you'd imagine after examining the qualities and tailoring. It is not brag or mere boast when we say that our Suits and Overcoats for Men and Young Fellows at \$10, \$12, \$15 and \$18 cannot be duplicated else where at 25 per cent more money. If we were ever deserving of your trade favors, we are doubly so this season, for the efforts we've made.
